Thanks to its movement and tone, versatility and variation, the Long Subway Marble Brick Collection is quite literally a force of nature in any interior. It epitomizes biophilic design, the harmony between contemporary interior design and mother nature.

The marble tiles in this collection come in a choice of finishes, including polished, honed, or leather. The leather finish creates a subtle texture ideal for earthy, natural interiors. This collection includes some of our most popular stones. Shades include warm grey Silver Shadow, boldly striated Skyline, warm neutral Diana Royal, and decadent Iris Black.

These 2" x 8" bricks may be installed in a single or double herringbone pattern, stacked or staggered. The Long Subway Marble Brick Collection is suitable for all interior horizontal and vertical applications.
